

Plant Species**Accepted Name:** *Mangifera indica* L.**Family:** ANACARDIACEAE**Synonyms:**

- *Mangifera domestica* GAERTN.

Used in: Ayurveda, Siddha, Unani, Folk, Homeopathy, Sowa Rigpa**Habit:** Tree

Distribution: This species is globally distributed in the tropics and cultivated for the edible fruits. Within India, it is wild or semi-wild nearly throughout the tropical and sub-tropical hilly forests, particularly near nullahs and ravines. It is common in sub-tropical Himalayas, hills of western and eastern ghats and the forests of Central India, Bihar, Orissa, Assam and Andaman Islands. It is grown in plantation and orchards, but more often in homeyards, field borders and roadside avenues.
